

Recognition & Results: Our Q3 Impact Snapshot

Two decorative teal lines, one curved and one straight, positioned below the word 'Snapshot'.

Quarter 3 has been an exciting one, focused on turning our ambitious targets into verified impact.

We are proud to have been recognised by both B Corp and Social Enterprise UK, formalising our commitment to driving impactful change. We have also been hands on in our community, supporting the charity Action for Children with an exciting new retrofit project, and volunteering at Greenfield Valley Heritage park.

Supporting our local greenspace

Our team returned to Greenfield Valley Heritage Park again this quarter, this time helping to move dredged pondweed from the ponds bank to the base of nearby trees.

The pondweed was cleared to support the recovery of aquatic life and create a community fishing lake for residents. Rather than letting it go to waste, we used the pondweed as mulch, clearing the pathway for visitors while helping nearby trees to retain moisture and nutrients.

Achieving our BCorp certification

We are thrilled to share that we have successfully achieved our BCorp certification with a score of 98.1, 18.1 points above the qualifying threshold. This externally verified accreditation provides reassurance that we are making good on our commitments to people, planet and place.

Joining Social Enterprise UK

Cyd Innovation are proud to join SEUK' s network of businesses that are driven by purpose and people over profit. We are proud to be recognised as a mission-driven organisation and are committed to simplifying the path to warm, healthy homes for everyone.

Our Q3 Social Impact highlights

27
HOURS of volunteering in total

INCLUDING...

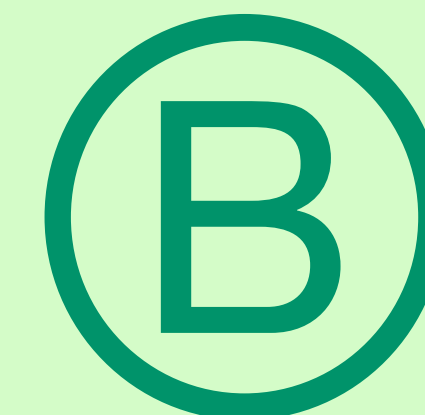

10
HOURS of support for small and medium enterprises

2
HOURS of support provided to teach young people about retrofit

15
HOURS of environmental volunteering

77% of staff have volunteered this year

Certified

Corporation

We achieved an overall Impact score of **98.1**

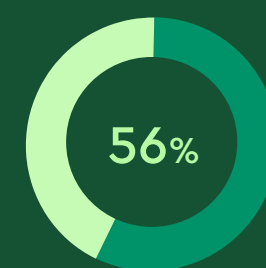

Verifying Cyd Innovation's high social and environmental performance.

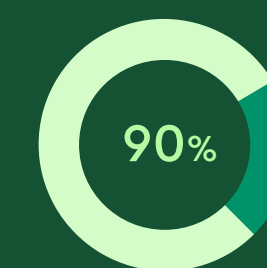

We have finalised our registration as a Social Enterprise under Social Enterprise UK. Formalising our position as a mission-driven business through their framework.

Momentum is building, we're talking it all in our stride and securing our position as leader of social value in the retrofit space.
